

NO CHILD LEFT INDOORS®

Appointing a Chapter Youth Program Chair

Pheasants Forever and Quail Forever's *No Child Left Indoors* initiative is our effort to work with members, chapters and conservation partners to provide opportunities for youth and their families to share our outdoor traditions and develop a conservation ethic.

Appointing a committed and passionate Youth Program Chair to your chapter's committee can help invigorate and strengthen your local PF/QF chapter:

- Youth and family events provide chapters the opportunity to invest in their local community and recruit new, enthusiastic volunteers; both of which help strengthen and invigorate chapters.
- The Youth Program Chair is a great position to place those new, enthusiastic committee members.
- PF/QF Education & Outreach programs continue to grow; appointing a Youth Program Chair will help insure that your chapter stays informed about new programs and opportunities.
- Did you know there are several grant opportunities for your chapter to receive reimbursement for activities related to shooting sports and our new habitat education program? If your chapter had a committed Youth Program Chair, you may be able to capitalize on these opportunities.
- PF/QF provides a newsletter and trainings specifically designed to keep Youth Program Chairs informed and educated about opportunities and best practices for engaging youth and their families in our outdoor traditions.
- The Youth Program Chair position is a lot of fun!

If your chapter has not appointed a Youth Program Chair you may be missing opportunities to build a stronger chapter and preserve our conservation legacy. Please use this form to appoint your new; or update contact information for the veteran, Youth Program Chair. If you have questions regarding the Youth Program Chair responsibilities, contact Rich Wissink at 715-722-0286 or rwissink@pheasantsforever.org.

Submit information to: Rich Wissink, National Youth Programs Manager
1783 Buerkle Circle
Saint Paul, MN 55110

Thanks for all you do for wildlife habitat and the future of conservation!
