## Pepsi Vending Machine Firearm Safe

Whether you own firearms for hunting, target practice, personal protection, or simply as collectibles, it's vital to store them properly and safely. As comforting as it is to know young or inexperienced hands won't accidentally get a hold of your firearms, safes also prevent thefts from intruders.

The best type of firearm safe is one people don't know exists, and there's no more unique way to hide a safe than for it to be cleverly located within an unassuming Pepsi vending machine. Whether stored in your garage or the basement, this one-of-a-kind "vending machine" is a must-have for anyone who values not only their firearms, but the safety of their household as well.
