## Joel Pilcher Original Art "Call of the Uplands Pheasant"

To view a time lapse of Joel making this incredible piece, scan this QR Code:

Photographs capture the world as it is. Art portrays the world of our dreams and desires. Joel Pilcher's dramatic image of a rooster pheasant crowing on a fine spring morning bridges the gap: We know the splendor of the bird and feel the drama of his dance, yet miss the color of his feathers and the urgency in his call. We heed those harbingers in this, the kick-off issue that introduces something big coming to the uplands... Join us in assuring that there are places from which the ring-necked pheasant — and a thousand other denizens of the prairie grass and wild flowers — can greet every spring forever.

One lucky winner will own this art original from Joel Pilcher that was the cover of the Spring 2021 Pheasants Forever Journal!

*Together, We're Taking a Stand.*

Pheasants Forever and Quail Forever, through Call of the Uplands®, will focus on strategic landscape initiatives and leverage the full strength of our chapters, members and donors.

Protecting and improving habitat within the pheasant and quail ranges will be a focal point of every strategy implemented.

Our uplands are counting on us to step up and help play a critical role in reversing the loss of upland wildlife habitat! We hope you join us and donate today!

This campaign is our promise to never stop working to protect habitat, wildlife, and the meaningful experiences we share outdoors.

This campaign is **your opportunity** to make a difference for wildlife habitat conservation and future generations.

## THE HABITAT WE'RE LOSING POSES THREATS TO PHEASANTS, QUAIL AND OTHER WILDLIFE

**70% DECLINE**

in America's pheasant population (since 1970)

**83% DECLINE**

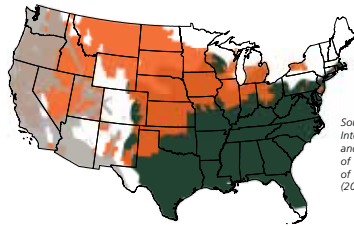

in bobwhite quail populations across their entire range (since 1970)

**53% DECLINE**

in populations of grassland bird species (since 1970)

Habitat loss threatens the wildlife we love. We're ready to fight for this habitat, but we need your help! Together, we can make a difference by strategically protecting and improving upland habitat across the pheasant and quail ranges.
