

Pollinator Habitat

OUTREACH PROGRAM

WHAT IS THE POLLINATOR OUTREACH PROGRAM?

Pheasants Forever & Quail Forever's Pollinator Habitat Outreach Program aims to engage schools, youth groups, families and communities across the country in establishing pollinator habitat projects. The objectives of this program are to increase awareness about decreasing pollinator habitat across the country.

The program will provide tools for Pheasants Forever & Quail Forever chapters and partners to create habitat projects that involve youth groups, schools and community groups. Program support includes training on how to plan and conduct a pollinator project from start to finish, conservation/pollinator curriculum for classrooms, hands-on educational activities, and monitoring

activities that can be conducted after the project is established.

In addition, grants up to \$500 are available to help with project expenses. The results of this program will not only benefit pollinators by providing quality foraging and nesting habitat, but it'll provide opportunities for youth to get outside and gain an appreciation for wildlife and conservation.
